SUMMARY

Motivated and detail-oriented Computer Science Engineering graduate with hands-on experience in Java Programming and MERN stack development. Proven ability to solve problems efficiently, adapt quickly, and work in team-oriented environments. Eager to contribute technical and analytical skills to a dynamic organization.

EDUCATION

Bachelor of Technology, Babu Banarasi Das University

2021 - 2025

Relevant Coursework: DSA, Web Technology, Database Management System, Software Engineering.

Intermediate, Central Board of Secondary Education

2021

SKILLS

Technical Skills
Soft Skills

Java, HTML, CSS, SQL, DSA JavaScript, Excel, Power BI, WordPress

Communication, Problem-Solving, Teamwork, Adaptability, Critical Thinking

EXPERIENCE

Full Stack Developer

Ultimate iTech

Aug 2025 - Present Ghitorni, New Delhi

- Contributed to "Indian Trade Mart", a full-stack application built using React (frontend), SQL (database), and a Java-based backend, enhancing user interface performance and ensuring smooth API integration.
- Developed and maintained "Eimager", a Laravel-based web application, improving system scalability and data handling efficiency by 30 percent through optimized backend logic and database queries.
- Implemented secure authentication modules and RESTful APIs to improve overall application reliability and security standards.

MERN Stack Intern

IKIGAI School of AI

Sep 2023 - Nov 2023 Lucknow, Uttar Pradesh

- Developed dynamic and responsive web applications using React.js for the fron-end and Node.js and Express.js for the back-end.
- Integrated and managed MongoDB databases for seamless data storage and retrieval.
- Ensured application performance, scalability, and security by following best coding practices.

PROJECTS

Indian Trade Mart. Developed a dynamic trading platform enabling businesses to list, manage, and trade products online. Built using React for the frontend, SQL for data management, and a Java-based backend for secure API integration and high-performance processing. (Try it here)

Eimager. Developed a secure platform for verifying employees' professional experience using Laravel, implementing role-based access control, automated verification, and optimized database queries for faster validation. (Try it here)

Todo App. Built a full-stack task management app using MongoDB, Express, React, and Node.js, enabling users to create, update, and organize daily tasks with real-time updates and a responsive user interface.

CERTIFICATES

- Java Programming : CodeSoft
- Data Analysis with Python : IBM
